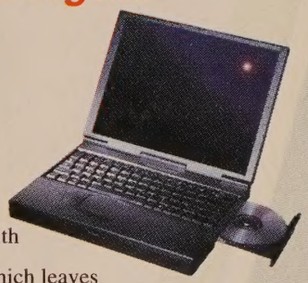
Sceptre's Soundx Notebooks Are:

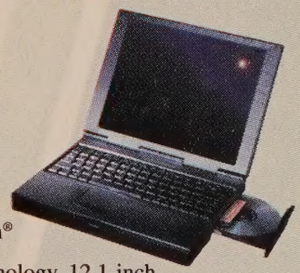
Rated #1 in *PC Digest*



"The Sceptre Soundx 5500 Notebook is the fastest system in the review..."

"Sceptre takes top honors with the Sceptre Soundx 5500, which leaves all the other notebooks in its tracks when running NSTL's gauntlet of performance benchmarks. This is a very fast desktop replacement with a 233-MHz Pentium® processor, a 13.3-inch XGA display, and a roomy 3GB hard disk drive for storing large multimedia files."
NSTL PC Digest, September 1997

Best Buy - *PC Portables*



"The Sceptre Soundx 4500 is an impressive machine..."

"Sceptre is selling this computer [166 MHz Pentium® processor with MMX™ Technology, 12.1-inch TFT SVGA display, 2.1 GB HDD] with 40 MB of RAM...for just under $3,400, which puts well within the reach of many. This configuration ... deserves our **"Best Buy"** rating for the value represented."
PC Portables, November 1997

In head to head comparisons against the likes of Compaq, Hewlett-Packard, Gateway 2000, Micron and Hitachi, to name a few, Sceptre's Soundx notebooks have proven themselves the best. Call now for a distributor near you or check out our web-site for more information.

Two Small Steps for DecaView.

Introducing two small steps (19" and 21" long) we've taken to shake up the monitor market.
The DecaView 19" demolishes the high price barrier for 20" monitors
without significantly sacrificing viewing capabilities.
And the DecaView 21" offers true twopage viewing with amazing resolution and refresh rate.
With a complete product line including LCD, professional, graphic, and value monitors.

DecaView is the smart choice for people with an eye for technology.

The DecaView 21". 107 KHz
for 1600x1200 at 85Hz flicker-free refresh rate.

1998 NORTHERN CALIFORNIA DEALER & SERVICE GUIDE

Whatever your computer-related shopping needs, this annual directory helps you find what you're looking for fast. This year, in order to further assist you in your search, we've separated Internet-related services (from ISPs to Web designers) from equipment-related businesses.

Please refer to the alphabetical-by-city listings (starting on page 20 for computer dealers and page 164 for Internet-related businesses) for contact information; for vendors offering specialized products and services, from network consulting to multimedia authoring, see the Dealer Specialties listings (page 114 for dealers, 184 for Internet), cross-referenced to the city listings.

Quotation Hotline

The Free, Convenient And Easy way To Receive Pricing Quotations On All Your Computer Needs!

To accurately process your quotation request, please print like the example below, without touching the box sides.	Please do NOT use a cover sheet. Only legible and completed forms can be processed. You may make copies of this form for multiple requests as needed. Fax forms to: (800) 496-8008 Please shade circles like this > ● and NOT with check or crossed marks > ✓ ✗

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

0 1 2 3 4 5 6 7 8 9

To ensure accuracy, please read the following information and instructions:

1. All requests for quotation must use the form attached so that the Optical Reading software (OCR) can read it accurately. Do not send requests for quotation on your own letterhead because the software will not read any other text except for the text areas provided in the form.

2. Please fill in all the information legibly. By filling in the boxes neatly and legibly our OCR software can read your requests for quotation accurately. This will also ensure that your request is easier for advertisers to respond to your needs.

3. Do not cut inside the dotted line. Do not use a cover sheet.

4. If you are asking for multiple systems and/or computer products in the same category but with different specifications, please use additional forms. This will ensure that your requests for quotation will be responded to accurately and without any confusion from *MicroTimes* advertisers.

5. Be familiar with the particular computer products you are interested in. Be specific about the various products, system processors, speeds, hard drive sizes, features, as well as the particular configuration that you are interested in. This will ensure that you get an accurate response.

COMPUTER SHOPPING MADE EASY

The MicroTimes Quotation Hotline:

Whether you work for a large corporation or are buying for your personal use, the MicroTimes Quotation Hotline can help you gather pricing ***Information Quickly, Easily and for Free*** from a wide variety of computer resellers through the support of MicroTimes magazine.

Just fill out the form on the opposite page so you can receive information directly from our advertisers on the exact computer products you are interested in. Our advertisers will respond to your requests directly by fax, phone, mail, or e-mail...whichever way you choose.

When You're Finished, Please Fax The Completed Form To:

Areas of Specialty (and In-House Expert): computer service/repair, Mark Chaffey; computer

At Computer Jam we believe that our customers should know what they are paying for and get it. We specialize and take pride in dealing with you on a one on one basis. Helping you custom-build a top quality computer with high quality parts at an affordable price is our goal. And because we don't sell anything less, we back up our computers with a Two Year Parts and Lifetime Labor Warranty.

Computer Jam is not a large company, but a group of computer nerds who stay on top of the latest technology by testing today's newest products and reading up on tomorrow's upcoming products. We are very honest about the components we sell, letting you know our dislikes and recommendations. There are even some things we refuse to sell. We work with our clients very closely, and because none of use earn commission, you will always be treated equally by all of us. Our goal is to make this company grow, and we know the only way this can be done is by all of us working together. We try to stand apart by giving you the one on one, name knowing, face to face customer service that is just so hard to find with the Big Guys. The Big Guys who don't really know what they're talking about or selling.

Remember, a good computer takes time!

SEVEN DAY A WEEK STORES
"The Most Complete of Any Bay Area PC Store"

Laitron computer has been serving the Bay Area for seven years, and we have grown from one store in 1991 to seven stores covering all major regions of the Bay Area. We are committed to provid ing the highest level of quality and service. And we will not accept otherwise. So when you buy from Laitron, you can be assured that you are receiving all the name brands that you want at the excellent prices you deserve. Unlike the other guys, we refuse to use cheap components in order to make the price of the system appear lower. We only use the highest grade components like Asus, Diamond, Quantum, Intel, and Yamaha to insure that you have the most reliable system possible. The Amazing thing is that our prices are still lower than the other guys. So come to one of our seven convenient locations and experience a truly different kind of computer store.....one where people care. Our bot-tom-line is that we want to make sure you get the best price along with the best ser-vice.

FREE T1 Internet account activation. FREE Cisco equipment use. And screamin' T1 speed for just $1,195 a month!

Get screamin' T1 Internet access for your business at an unbeatably low price – just $1,195 a month for all the speed you can handle. Sign up for a **GeoNet** T1 today and we'll give you **FREE** account activation, **FREE** equipment use, and conduct a **FREE** security audit of your network.* That's a savings of $2,500, just for signing up!

Of more than 4,000 ISPs in the country, **GeoNet** is one of only 30 Tier 1 providers offering **direct** access to the Net. Don't suffer a slow-poke, dial-up, stop-and-go connection to the Net a minute longer. Call **GeoNet** today.

Need a little more? Try a T3 at up to 45 Mbps.
Need a little less? Ask us about Frame Relay.

GeoNet vs. other Tier 1 Providers – The facts:

- **GeoNet** has officially been clocked at ***twice the speed*** of the average T1 connection for all Tier 1 providers across the country.
- **GeoNet** costs an average of ***$800 a month less*** than other Tier 1 providers.
- **GeoNet** was ranked the ***#1 price/performance value*** for T1 Internet access in all of Northern California!

Call for Pentium 166/200/233MHz/MMX upgrade

DIAMOND MULTIMEDIA

April 9th,

Dear Derek,

Thank you for lending us the Pentium 133mhz systems for the CGDC (Computer G Developer Conference) and WINHec (Windows hardware engineering conference) shows. The systems were great and were very reliable. I also appreciate the two Pentium P166mhz systems that you were able to put together within a few hours.

Once again, I like to thank you, and your staff for your invaluable contribution. W

Over the last two years, the International and Area Studies division of the University of California at Berkeley has been using UMiracle Microsystems computers for their workstations and servers. UMiracle has been our best choice for highly competitive pricing, proven customer response time, and system reliability.

When servicing our own customers, having a computer vendor whose sales and technical teams are quick to respond is very important. UMiracle (and Ken Wu, in particular) has consistently surprised me with their timely and accurate responses. This has often beaten out other vendors who either take their time in responding to calls or never return them in the first place. When it comes to technical difficulties, UMiracle stands behind their products and provides the best support possible promptly.

In addition, UMiracle computers have been highly reliable for their competitive pricing. Often companies worry if they will obtain quality products when they purchase computers at good prices.

UMiracle is the computer product provider we choose when we are looking for computer hardware or software for our company. As a validation engineer, we are continually seeking the latest technology as we enhance our testing environment. We have purchased most of our new hardware & software from UMiracle over the past few months, and these products have been very reliable. We have also utilized UMiracle's technical engineering staff in the product choosing process which is very good in suggesting a variety of choices and cost effectiveness. We choose UMiracle for its helpful and responsive sales team, knowledgeable technical staff, and overall competitive pricing

UMiracle is a computer product vendor that stands out, and fulfills our computing needs in a responsive manner. When it comes to technical difficulties, UMiracle stands behind their products and provides efficient and prompt support

Albany, CA 94706

To whom it may concern:

We have been delighted to have UMiracle as our sole provider of comput hardware for our 7 server, 100+ user wide area network over the past y timely, reliable and extremely courteous. In addition to superlative service salespeople and knowledgeable and (most importantly) accessible support have been extremely competitive

What is RAID?

RAID is an acronym for Redundant Array of Inexpensive (or Independent) Disks. A RAID array is a collection of drives which collectively act as a single storage system, which can tolerate the failure of a drive without losing data, and which can operate independently of each other. Among all RAID implementations, AAA-130 series, the latest Adaptec RAID 5 solution, is the most cost-effective way to protect your data. If the data in your file server is vital to your survival of your business, RAID-5 is the way to go!

INTERNET ACCESS+EMAIL SOLUTION

INTERNET PROVIDES POWER TO BUSINESS USERS LIKE YOU! EXPLORING YOUR IDEA, GO TO INTERNET! RESEARCHING YOUR PROJECT, GO TO INTERNET! MAKING AN INTERNATIONAL CALL, GO TO INTERNET! ONCE YOU HAVE IT, YOU WILL HOOK ON IT. AND TO HOOK ON IT CHEAP, YOU NEED ISDN INTERNET ACCESS FROM UMIRACLE. WE WILL SETUP YOUR ISDN LINE, GET YOU THE RIGHT ROUTER, SETUP YOUR ISP ACCESS ACCOUNT, SETUP YOUR EMAIL ADDRESSES, CONFIGURE YOUR NETWORK WITH TCP/IP PROCOTOL, ALL FOR ONE PACKAGE PRICE! CALL UMIRACLE NETWORK SOLUTION FOR DETAILS!

FAX SERVER SOLUTION

DON'T WAIT IN LINE FOR YOUR TURN TO FAX, DON'T HAND-WRITE YOUR COVER PAGE! FAX DIRECTLY FROM YOUR DESKTOP, NEATLY AND PROFESSIONALLY! WITH THE RIGHT FAX SOLUTION, YOU CAN RECEIVE YOUR FAX AND PRINT RIGHT TO YOUR LASER PRINTER, REPRINT YOUR 6 MONTHS OLD FAX, FAX YOUR DOCUMENTS FROM YOUR WINDOWS APPLICATION JUST LIKE PRINTING. ALL VIA ONE LINE, ONE MODEM! FORGET ABOUT BRINGING A LINE AND A MODEM TO EVERY DESKTOP! WITH WINFAX PRO FOR NETWORKS (NON-DELICATED) AND SATISFAXTION FAXBOARD, AND UMIRACLE NETWORK SOLUTION TECHNICAL EXPERTISE, WE SURE CAN GET YOU THE BEST SOLUTION! CALL US FOR DETAILS!

3-KEYSTROKE RECOVERY BACKUP SOLUTION

YOU THINK YOU GOT IT ALL BACKED UP? NOT UNTIL THE DAY YOUR SERVER CRASHES YOU WILL FIND OUT YOU HAVE TO 1.) TROUBLESHOOT AND REPLACE YOUR DEFECTIVE COMPONENTS, 2.) RELOAD YOUR NOS, DRIVERS, APPICATIONS AND BACKUP SOFTWARE, 3.)RESTORE YOUR DATA FILES FROM BACKUP, 4.)RECONSTRUCT YOUR USER AND PRINTER ACCOUNTS, AND 5.)EXPECT MISSING AND CORRUPTED DATA HERE AND THERE! WHY? BECAUSE YOUR BACKUP SOFTWARE BACKS UP ONLY DATA FILES, NOT THE OPENED FILES, NOT THE SECURITY DATABASE OR PARTITION INFORMATION! BACKUP SOFTWARE DON'T MAKE SENSE UNTIL NOW! WITH REPLICA V3 BY STAC, YOU CAN BACKUP YOUR HARDDRIVE PARTITIONS AS OBJECTS, RESCUE YOUR DISASTER WITH 3 KEYSTROKES FROM A RECOVERY DISK, EVEN FROM A LOW-LEVEL-FORMATED HARDDRIVE, AND BRING YOUR SERVER UP IN HOURS! TO FIND OUT HOW WE CAN PROVIDE THIS SOLUTION, CALL US NOW!

WE MONITOR THE TRENDS OF EVERY TECHNOLOGY IN THE INDUSTRY AND GET YOU THE BEST! GUARANTEE WE WILL TAKE IT BACK IF IT DOESN'T WORK!

- No Charge for Resubmissions

* InterNIC Fee: The InterNIC is the organization set up by the US Government to administer all .com, .net, and .org domain names. Their fee is $100.00, which covers 2 years of maintenance. We're one of only 28 companies in the world that gets preferred processing with InterNIC. This bill is mailed to you around 20 days after your domain name is confirmed. After 2 years InterNIC will bill you $50.00/yr. Everyone must pay the InterNIC fee.

No Set-up Fee & FREE Hosting

NetCorps Announces
FrontPage98 Web-Hosting Beta Program

Register your domain name now!

Domain names are going at over 165,000 per month. By tomorrow yours may be gone! If you don't use your domain name now, save it for later.

Corporate Services

"Protect your name overseas!" We can register your domain name with foreign domains. Spend hundreds now to save thousands in IP lawsuits later!

InterNIC Premier Partner

Means we can provide immediate solutions to your InterNIC Domain Name needs.

Microsoft® FrontPage98

- Virtual Domain Hosting
- 25MB of Disk Storage
- Unlimited Updates
- E-Mail Fowarding
- CGI Capabilities

These features are for Beta only. Users may upgrade to Full-Featured Web-Hosting when FrontPage98 Service becomes available.

Without a domain name,
your e-mail address would look something like:
yourcompany25343@aol.com
and your Web site would look like:
www.aol.com/~yourcompany/home.html

With a domain name,
your e-mail address could be:
you@yourcompany.com
and your Web site would look like:
www.yourcompany.com

Satisfied customers include the following worldwide corporations:
Ford • Oracle • Calvin Klein • Jaguar • Austin Martin
Baxter Healthcare • Chrysler

Internet-Related Businesses

To make it easier for you to find exactly the services you're looking for, this year we're separating listings for Internet-related businesses from those for local retail stores (p. 20). Whether you're looking for a T-3 connection for your corporate site, or someone to design a Web page for your small business, you'll find lots of options here.

For cross-referenced specialty listings, see page 184.

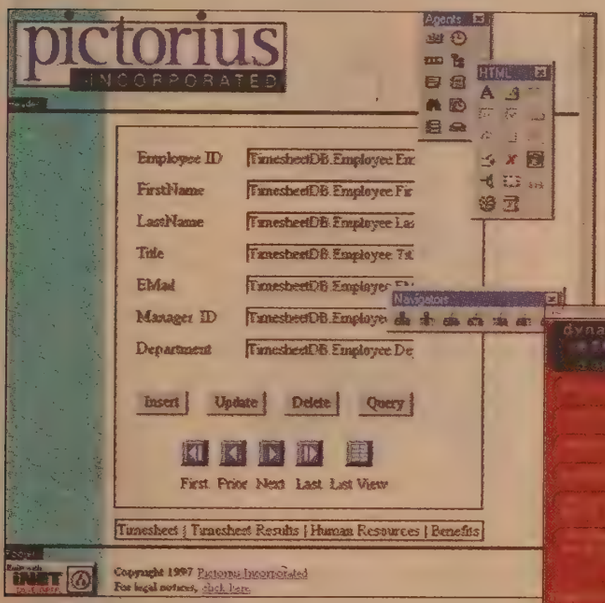
INTERNET/INTRANET SOFTWARE

iNet Developer 3.0

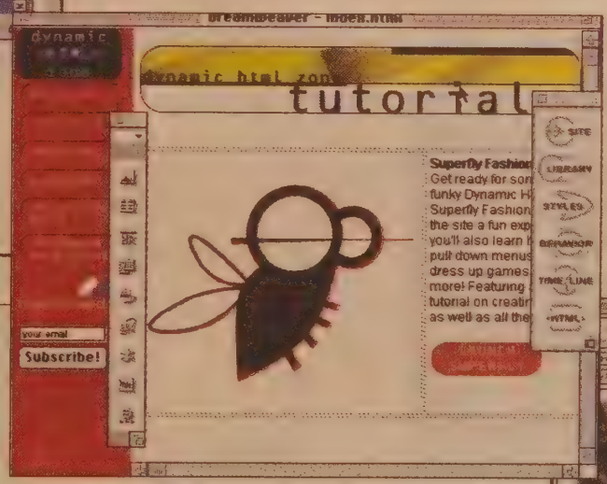
iNet Developer 3.0 for Windows 95/NT is a complete intranet development solution



designed to give teams in a corporate environment the ability to create powerful intranet sites. It includes support for Microsoft's Component Object Model (COM) enabling users to extend the power of iNet Developer using other languages such as: Visual J++, Visual Basic, Visual C++, and Delphi. Users now have the choice of using the integrated programming included with iNet Developer, or any programming language that supports the creation of COM objects, to add custom functionality to any site. ($1495, including a site and page editor, the application server, and the integrated programming environment. Also available for Macintosh) Pictorius, Inc., Halifax, Nova Scotia, Canada. 1-800-937-4847, (902)492-2880. URL: *http://www.pictorius.com* .

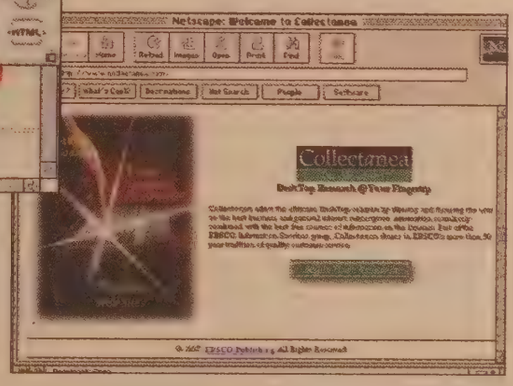
Dreamweaver

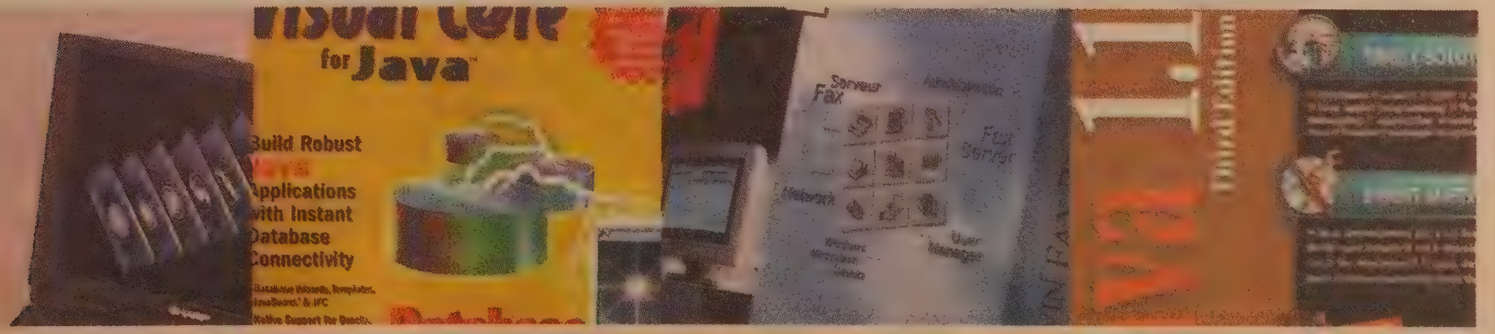
Dreamweaver combines the power and productivity of a visual tool with the control and flexibility of an HTML text editor, providing support for Dynamic HTML. Featuring Roundtrip HTML technology, Dreamweaver allows developers to switch back and forth between their current HTML source editor and Dreamweaver without fear of changes to their handwritten HTML. It comes bundled with BBEdit 4.5 for Macintosh and HomeSite 3.0 for Windows 95. Developers can move seamlessly between visual and source editing modes as they author Web pages. It also automatically generates cross-browser Dynamic HTML, which will display in both Microsoft and Netscape browsers. ($499, with $299 introductory price until February 28, 1998. For Macintosh Power PC and Windows 95/NT) Macromedia, Inc., San Francisco, 600 Townsend St., CA 91403. 1-800-326-2128, (415)252-2000. URL: *http://www.macromedia.com* .



Corporate Desktop Library v3.1

Corporate Desktop Library v3.1 offers corporate end-users expanded content and new capabilities that make competitive research easier. New features include profiling tools, a relation builder, and two alternate methods of conducting article searches. With the

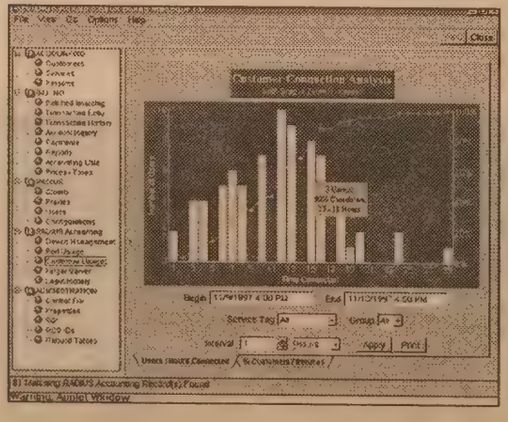




profiling tools, the new version offers users the ability to focus their searches to articles within the current month or year, or to expand their searches to include all articles in the full collection. The relation builder automatically identifies additional material related to the current company or subject profile. Almost 300 abstracts have been added, increasing the total to nearly 1,000. Over 100 full text titles have been added to the Articles database, which now includes nearly 4,000 sources. New titles include popular business publications such as *Derivatives Quarterly, Strategy and Leadership, Emerging Markets Week*, and *Emerging Markets Quarterly*. Collectanea, a division of EBSCO Publishing. 1-800-653-2726. URL: *http://www.collectanea.com* .

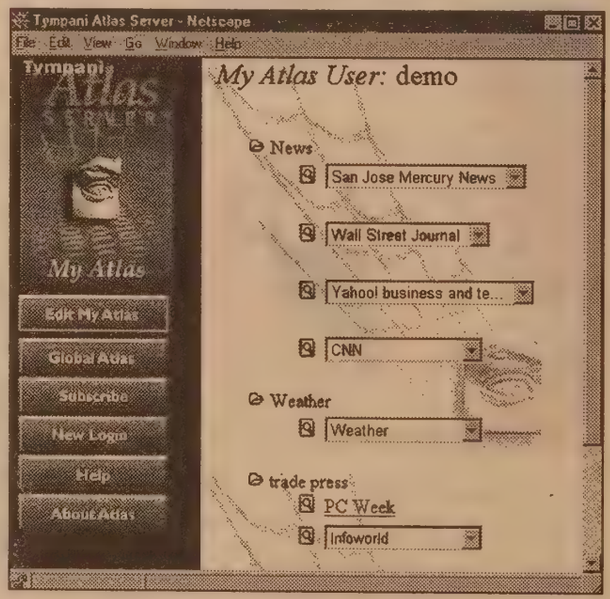
RADIUS ABM

RADIUS Authentication Billing Manager (RADIUS ABM) combines RADIUS security server with a complete suite of service provisioning, billing, and network applications. It allows Internet Service Providers (ISPs) and enterprise corporations to construct an integrated enterprise-wide remote access management system that coordinates such technical processes as authentication and session accounting with such business processes as customer billing and network trend analysis. Its capabilities include Universal Service Provisioning of all network-based services from a single application interface, advanced RADIUS security and accounting, integrated billing, trend builder statistical analysis tools, and a centralized filter administrator to ease the management of security and access to control filters. It runs on Sun Solaris, Windows NT, and UNIX operating systems supporting the Java Run Time Environment 1.1, and provides database support for Oracle, Microsoft SQL Server, and Microsoft Access. (RADIUS ABM is licensed on the basis of the number of customers or subscribers. List pricing starts at $1500) Livingston Enterprise, Inc., 4464 Willow Rd., Pleasanton, CA 94588. 1-800-458-9966. URL: *http://www.livingston.com* .



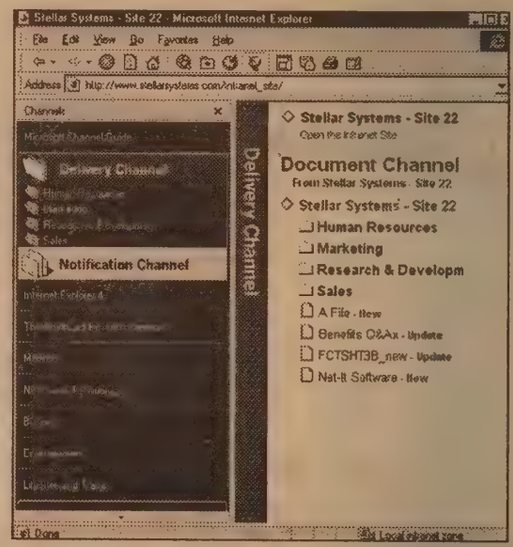
Atlas Server

Through its multi-user, server-centered agent technology, Tympani's Atlas Server enables organizations to retrieve, search, filter, index, publish, broadcast, and manage Web/intranet information. Interacting with Atlas through server-launched thin-client Java applets, users access their own private spaces, called My Atlas, on the server. In these spaces, users can set up retrieval agents using Atlas' searching and filtering technology to automatically locate and store relevant information. By using Atlas as a proxy server and by setting up Atlas agents, users pull meaningful data into Atlas' object database repository. Atlas' optional Global Atlas feature allows companies to create a corporate electronic bulletin board. Atlas Server is available for Intel/Windows NT, Sun Solaris, and HP-UX. (Introductory package licensed for five users, $1250. Additional user licenses start at $50 per user) Tympani Development, Inc., (408)735-9555. URL: *http://www.tympani.com* .



Net-It Central 2.0

Net-It Software Corp. has released v2.0 of its



Net-It Central server software, which turns a corporate intranet into a complete document-sharing solution. Net-It Central 2.0 now delivers critical documents directly to the desktop using Netscape Netcaster and Microsoft CDF "push" technologies. With Net-It Software's Docucast technology, Netcaster and CDF channels are automatically created and maintained for "hands-free" enterprise document-sharing. In addition to incorporating push technology and enhancing the jDoc document container in Net-It Central 2.0, Net-It Software has also extended the Net-It Central architecture to support CentralTools. CentralTools are self-contained software modules which perform a specific document-sharing function and plug into the Net-It Central application itself to extend the core feature set of Net-It Central. ($1,995–$6,995). Net-It Software Corp., 1550 Bryant St., 2nd Fl., San Francisco, CA 94103. (415)551-0600. URL: *http://www.net-it.com/* .

Build Robust Java Applications with Instant Database Connectivity
• Database Wizards, Templates, JavaBeans™ & JFC
• Native Support for Oracle, Informix, Sybase & Microsoft SQL Server
• Connect to Over 30 Databases through ODBC
• Incremental Debugging & Native x86 Compiler
• 100% JDBC™ Compliant Middleware
Database Development Edition
THE MOST POWERFUL JAVA DEVELOPMENT SOLUTION FOR DATABASES

Rapid Application Development (RAD) tool for developing Java applets and applications. It enables Java developers to assemble complete Java applications with database connectivity using components, templates, and JavaBeans. It includes Symantec's Java Integrated Development Environment (IDE), dbANYWHERE middleware server software, Visual Page HTML authoring application, Netscape's FastTrack Web server, and Communicator Web browser, plus over 100 JavaBeans, including database-enabled beans, and twenty database templates. Other key features include incremental debugging, support for JDK 1.1, and conversion of JDK 1.02 to JDK 1.1, ($499.95) Symantec Corp., City Center One, 20300 Stevens Creek Blvd., Cupertino, CA 95014. 1-800-441-7234. URL: *http://www.symantec.com*.

InstallShield Java Edition

InstallShield Java Edition lets you create a single Java installation system that is consistent in look, feel, and functionality across platforms. A simple development wizard walks you through the steps to produce a Java installation. It creates a single package, which can be read by any operating system with Java Virtual Machines, v1.0.0 or higher. Another wizard takes the end-user through a consistent installation process, regardless of platform. Features include the ability to display dialogs with company and application information, readme files, and license agreements, plus uninstallation, silent mode support, the ability to create launch scripts, and more. InstallShield Java Edition also offers Windows-specific functionality for creating shortcuts, modifying the registry, and specifying self-registering files. Perspective JavaChart

Perspective JavaChart offers Java developers a 100% pure Java Class Library, a JavaBean, and a fully pre-configured Java 1.1 applet for creating professional charts directly in a Web page. The program has a full set of properties, methods, and user interface tools for Java developers who want to create data-driven graphics, and it works in any Java-compatible development environment, browser, or operating system. Data can be linked from almost any source—HTML, JDBC, raw text files, live data via a class or method, dynamic data server processes, CGI scripts, and many more. Charts update instantly whenever the data changes. Built-in drill-down support allows specification of URL and target for every single data point. Perspective JavaChart maintains this information throughout all editing operations. It supports eighty-six different chart types, including 3-D charts, with real-time wire-frame rotation. Perspective JavaChart works with Microsoft J++, Symantec Visual Cafe, IBM Visual Age for Java, Metrowerks CodeWarrior, Sunsoft JDK, and any other true Java Development environment. ($995 per server for executable code and per developer) Three D Graphics, Inc., 1801 Avenue of the Stars, Ste. 600, Los Angeles, CA 90067-5908. 1-800-913-0008, (310)553-3313. BeOS SOFTWARE

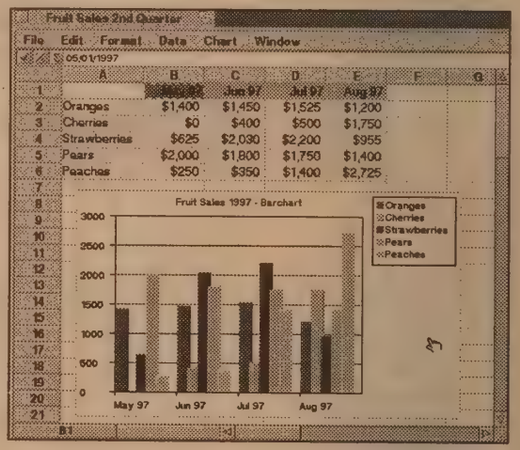
Sum-It v1.1



Sum-It spreadsheet, originally written for the Macintosh, has been rewritten in order to take advantage of running under the BeOS. All calculations within Sum-It are handled in multiple threads resulting in high-speed calculations throughout. Sum-It includes support for plug-ins so you can add your own functions. Standard support for filling functions and incremental values across a page, colored and formatted text and numbers, and resizable columns and rows are included. The current version, 1.0.0, is available as shareware. Version 1.1 with complete graphic support and import filters will become a commercial version with the release of BeOS Preview Release. 3D Starchart

3D Starchart allows you to view "every star with trigonometric parallax greater than or equal to 0.0390 arcsec, even though it may be evident from photometry or for other reasons that the star has a larger distance." In other words, it contains the preliminary version of the Third Catalogue of Nearby Stars. Using the controls,

you'll be able to rotate, zoom in, zoom out, adjust the brightness of the stars, and change contrast to highlight dim stars or only show the brightest stars. You can drag-and-drop a star or star cluster into a number of other windows including the Hertzprung-Russell window which allows you to see the class of the star at which you are looking. 3D Starchart can compare data between stars; drag your first star into the information window, find the second, drag it in, and in addition to their individual data, you'll see just how far apart the two stars are from each other. 3D Starchart has a powerful star-query engine that allows you to search for stars using criteria such as name, spectral class, absolute magnitude, right ascension, declination, and distance. BeatWare Paint

Paint provides a broad variety of technologies for handling still images, such as filtering, rotating, retouching, and color management. It takes advantage of the BeOS multi-thread environment to give users a fast-loading, responsive, zoomable environment, allowing unlimited and selective undo/redo actions on images. Images dragged into BeatWare Writer are invisibly linked, allowing real-time updating of images across multiple applications. Paint also gives users flexibility to edit an image while viewing it at various sizes and scales through multiple windows, making it an ideal environment for designing documents bound for the Internet. BeSpecific 3

BeSpecific 3 is third in the series of BeSpecific CD-ROMs from Adamation. It provides the best in BeOS shareware across a wide range of application areas, including: productivity programs, programming tools, commercial demos, latest source code, graphics, games, newsgroup archives *(comp.sys.be)*, and developer mailing list (Be DevTalk). Sold separately, and included free with each copy of the forthcoming BeOS manuals from O'Reilly & Associates, BeSpecific 3 is filled with useful BeOS Preview Release-compatible software. Adam 1.5

Adam is a full-featured SMTP/POP3 email client system. It uses Simple Mail Transfer Protocol (SMTP) to send messages, and collects your mail using Post Office Protocol (POP). These are the standard ways email travels back and forth across the Internet. It seamlessly integrates electronic forms and MIME-attachment capabilities to offer a flexible and reliable communication solution. Adam also allows you to configure and access multiple email accounts from a single interface, flexibly schedule when each account is checked for email, follow hyperlinks in your email messages to Internet resources, automatically purge old email messages, and develop external modules that provide added functionality. Adam works with the Preview Release of the BeOS and has been tested with the latest PR2 update. ($40) Adamation, Inc., 130 Webster St., Ste. 100, Oakland, CA 94607. (510)452-5252. text containers with Bezier and freehand tools similar to those found in illustration software. Publishers of long documents—books, annual reports, employee handbooks, etc.—will benefit from the comprehensive indexing, list generation, and "book" features in QuarkXPress 4.0. Version 4.0 supports Pantone Inc.'s Pantone Hexachrome color model, a six-color ultra-high-fidelity process system. QuarkXPress 4.0 is available on CD-ROM only. The MacOS version is a fat binary, allowing it to run on 68k and PowerPC-based systems. The Windows version requires Windows 95, NT 4.0, or NT 3.51 to operate. Precision Preview XT 2.0 For Macintosh

This image-handling XTension to QuarkXPress and QuarkImmedia provides photographic-quality previews of color, grayscale, and bitmap images, at up to 1200% magnification, yet prints using the original source file. It enhances all standard image file formats supported by QuarkXPress and XTension import filters, including TIFF, EPS/DCS, Photoshop layered files, PhotoCD, ScitexCT, IVUE, and FlashPix. With Precision Preview XT, designers create a layout only once, then reuse their work again and again for output to different types of media—paper, Web, multimedia CDs, or kiosks. It also includes the FlashPix Viewer plug-in from Live Picture for viewing high-resolution photographic-quality images over the Internet. Users can embed FlashPix images in QuarkXPress documents that are converted to HTML using other third-party XTensions from vendors such as Astrobyte, Extensis, and HexMac. MagicMask

MagicMask is a cross-platform masking and selection plug-in for users of Photoshop and compatible applications. It includes four new tools to make creating and refining masks and selections quick and easy: Color Brush lets you instantly select one or multiple objects or backgrounds simply by brushing over them; Magic Lasso, with automatic edge detection, allows you to cut out even the most complex, irregularly shaped, multi-colored objects with a few clicks; Nudge Tool offers easy manipulation of any selection directly by nudging it into place; and Density Mask lets you choose any color in the image to create a density mask. MagicMask is the first in a suite of three integrated plug-ins, providing users with seamless access between tools. Shaman Update Server, Personal Edition

Based on Shaman Update Server software for networks, the Personal Edition is designed for individuals and small business users who need to keep their software applications updated with the most recent patches and bug fixes. It helps users by automating the update process by inventorying a computer's hardware and software, researching and downloading the relevant updates, patches, and bug fixes. Shaman also provides users with in-depth readme highlights so they can decide if they want to install an update. Personal Edition includes one CD-ROM with the most recent updates and patches from Shaman's Update Library. The Personal Edition Gold is the same application, but includes monthly update CD-ROMs for one year to give users the speed and convenience of downloading updates from a CD-ROM as well as FTP. Shaman Update Server runs on a Macintosh PowerPC, MacOS 7.5 or greater, with 10MB of RAM, CD-ROM drive, and an Internet connection. (Personal Edition, $69; Gold version, $269) Shaman Corp., 2415 Third St., Ste. 231, San Francisco, CA 94107. (415)241-9952. URL: *http://www.shaman-update.com* .

colloquialisms, and is useful for anyone using a word processor to write or edit texts in Spanish. For those less familiar with the language, a special feature displays the program interface and help bubbles in English or French. El Corrector offers detection of spelling, typographical, and grammatical errors; verb conjugation; explanation of common language pitfalls; a 70,000-word lexicon; and a custom feature for adding new words to the dictionary. In addition, El Corrector is able to correct the difficult problem of accent placement in Spanish, and, contrary to spell-checkers, the program analyzes, explains and corrects grammatical errors. El Corrector is compatible with most word processors currently on the market, including Microsoft Word, Corel WordPerfect and Lotus Ami Pro and is available in both Windows and Macintosh versions. PC Software

Kanji OCR And Translation Aide

Kanji OCR, a Japanese language optical character recognition program, allows optical scanning of written Japanese pages and conversion to standard text files. It saves considerable time in converting Japanese text in books, magazines, letters or faxes to an electronic format.

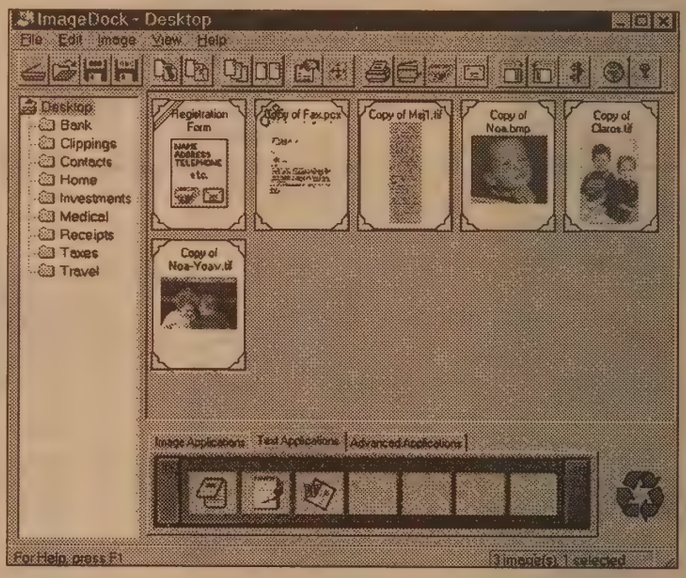
Language Aide functions as a dynamic dictionary that first isolates and translates key words within sentences, such as subjects, objects, and verbs. Words not translated in the first pass can be highlighted and looked up individually with Translation Aide's 200,000 English and 200,000 Japanese term glossary. Kanji OCR and Translation Aide run on Japanese Windows 95 and NT or on non-Japanese Windows 95 and NT systems with Japanese support provided by Pacific Software Publishing's KanjiKit 97. (Kanji OCR, $99, or bundled with KanjiKit 97, $249; Translation Aide, $149, or bundled with KanjiKit 97, $299) Pacific Software Publishing, Inc., 14405 S.E. 36th St., Ste. 300, Bellevue, WA 98006. 1-800-232-3989. URL: *http://www.pspinc.com* .

ViaVoice Gold

ViaVoice Gold dictation software is ideal for home or business users who frequently generate large amounts of text, or those who are looking for an alternative to the keyboard and mouse. It lets people use their voice to do a variety of tasks on the computer, including voice-typing letters, reports, and email messages, opening and closing computer files, and navigating the desktop. The text-to-speech feature allows the computer to read text to you—in US English, UK English, French, and German. It features speech-enabled command-and-control and navigation, voice correction, and support for direct dictation into most Windows 95 and Windows NT applications. In addition, ViaVoice Gold records the voice of the original writer for playback during the editing process. Also included is voice enablement of Microsoft Internet Explorer 4.0. ($149, includes a noise-canceling headset microphone) IBM Corp., Old Orchard Rd., Armonk, NY 10605. 1-800-426-2468. URL: *http://www.ibm.com* .

ImageDock

ImageDock scanner desktop software for Windows 95 and NT converts an ordinary TWAIN-compliant scanner into a multifunction device providing copy, print, fax, and email capabilities. ImageDock's user interface provides a "desktop" window where scanned images appear as thumbnails. A user can drag-and-drop a thumbnail onto a program icon to process the image. For example, dragging the thumbnail onto the Microsoft Word icon,



ImageDock automatically performs OCR and opens the resulting document in Word. Clicking a toolbar button will print, copy, fax, or email any selected thumbnail. Other features include a folder structure for conveniently archiving images, OCR of thirteen different Western European languages, a multilingual interface, and a fax-enhancement feature that automatically de-skews and cleans fax images. Headliner, a Webcasting application bundled with ImageDock, is a combination news ticker/screensaver that can be customized to provide user-specified information off the Web. SYSTRAN Classic For Windows

SYSTRAN Classic for Windows translation software is available in English from/into French, Italian, German, Spanish, and Portuguese. It translates 150,000 words per hour running on a Pentium processor. It is a native 32-bit program, compatible with Windows 3.1, 95, and NT. It enables the user to translate directly on-screen, viewing both source and target languages in the same screen or to send one file to

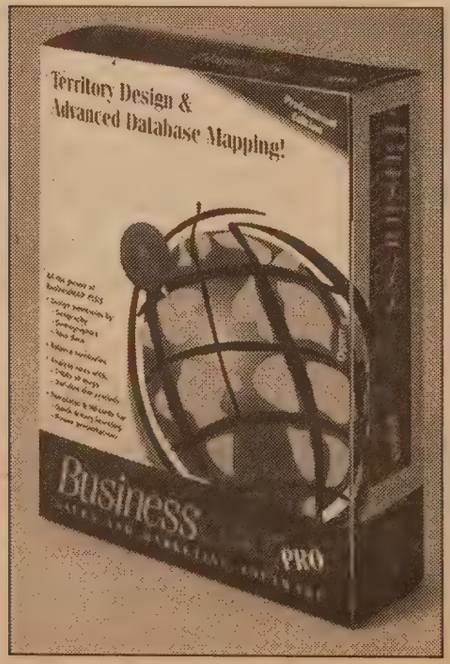
BusinessMAP Pro

BusinessMAP Pro, a Windows database mapping software, provides significant enhancements over earlier versions. These include more control over the display and visualization of data and reduced time needed to begin and complete a database mapping project. The new territory design capability allows users to assign geographic areas (country, state, county, or ZIP code) to a territory, region, district, or other designation simply by pointing on the map and clicking. Map templates allow users to start with a predeveloped map and then customize the map by adding their database, labels, text, and customized colors. Enhanced thematic mapping capabilities lets users assign multiple symbol sizes and colors within a single database. BusinessMAP Pro launches from most popular contact managers, such as ACT! 3.0, Gold Mine, Maximizer, and Lotus Organizer. Plus, the contact manager links add the capability to perform a geographic query/search of contact manager records and return the results to the contact manager as a group. ($149.95) Environmental Systems Research Institute, Inc., 1202 Richardson, Ste. 303, Richardson, TX 75080-4678. (972)664-0456. URL: *http://www.esir.com* .



Doc-To-Help 3.0

Doc-To-Help 3.0 is a versatile and powerful authoring environment that lets users create HTML Help, Web sites, Windows Help (for Windows 3.X, 95, and NT), and printed documentation. The new Information Types Manager helps give end-users just the information they need. For example, an author can create a category called "audience types" that includes beginner, intermediate, and advanced audiences. A category of content type may include procedures, concepts, and policy information. The end-user can then decide that he or she only wants to see beginner-level procedures. Another major new feature is Enhanced Multi-Version Output, which supports multiple platforms and multiple builds from a single document. Doc-To-Help 3.0 provides full support for HTML Help 1.1, Microsoft's HTML-based standard for help and online documents. ($499) WexTech, Inc., 310 Madison Ave., Ste. 905, New York, NY 10017. RapidRemote 1.5

RapidRemote is an easy-to-use and fast way to access the data of another PC, whether using a dial-up modem or a direct serial connection. Version 1.5 runs natively on Windows 95, NT 4.0 and 3.1x allowing users of different operating systems to quickly and easily interact with computers using different versions of Windows and eliminates the need to upgrade older PCs or remote control applications when migrating between operating systems. Security features include password protection,

automatic call-back capabilities, data encryption, the ability to bland the host-side screen and lock the host-side keyboard, intruder detection, and complete audit trails. RapidRemote 1.5 also works over all common environments including ISDN terminal adaptors, Novell LANs, direct serial connections, and TCP/IP networks, and supports most dial-up modems. ($69.95) Quarterdeck Corp., 13160 Mindanao Way, Marina del Rey, CA 90292-9705. (310)309-9700. Email: *info@qdeck.com* . URL: *http://www.qdeck.com* .

FotoWin Network Fax

FotoWin Network Fax enables networks to benefit from fax, file transfer, and telephone answering machine functions. Faxes are automatically routed to the proper recipient using a separate fax number for each workstation. When a call arrives, the routing box

detects which number has been called and transmits it to the fax server with a DTMF sequence. The program uses the routing table defined by the administrator who automatically distributes the fax to the right recipient. FotoWin Network Fax can be used with a modem, offering an ideal solution for laptop users and remote offices. Developed for installation on heterogeneous networks (Novell, LANtastic, NT, TCP/IP, etc.) and mixed workstations (Windows, Macintosh, or OS/2 in Windows emulation), FotoWin Network Fax adapts to each company's specific environment. HARDWARE TESTING

Nobody Tests Hardware Products Better Than Mad Dog Technologies.

Our staff has years of experience, particularly with graphics, 3D, video,and multimedia. Offering both thorough QA and Performance analysis services, Mad Dog will qualify any kind of hardware from controllers all the way up to fully integrated systems.

PRODUCT TESTING
Lower support costs by insuring that your products are bug free, guarantee great magazine reviews with topflight performance and feature sets, or show up your competition with eye dropping demos. We perform Windows 95/NT compliance testing.

NETWORK TESTING
Mad Dog Technologies also possesses a 50-node (and growing) network, perfect for testing client/server, inter or intranet-based applications, or anything else that demands a network.

LCI COMPUTERS
SOFTWARE ENTERPRISES

We are a small corporation with plans to become a major contender in the software and hardware marketplace. We are looking for bright, energetic talent to join our team and grow with us.

We are about to bring our first major general business product, **BIZVIEWS**, to market.

PROGRAMMER
MARKETING
SALES
TELEMARKETER
ADMIN PERSON

If you can fulfill one or more of the functions listed here, reside near San Francisco, have lots of drive, can work long hours if necessary, and can dedicate yourself to help us become a leader, then we would like to talk to you. Home-office environment gives us flexibility until our growth necessitates relocation.

In the **programming** area we are ideally looking for Visual dBase experience, or at least object-oriented, GUI, dBase, or similar experience, 2-5 yrs. or more. One project is to design a general ledger, so some accounting programming would be desirable. In the other areas we are looking for people with solid general business knowledge. Web and sales experience a plus.

DiskMapper v2

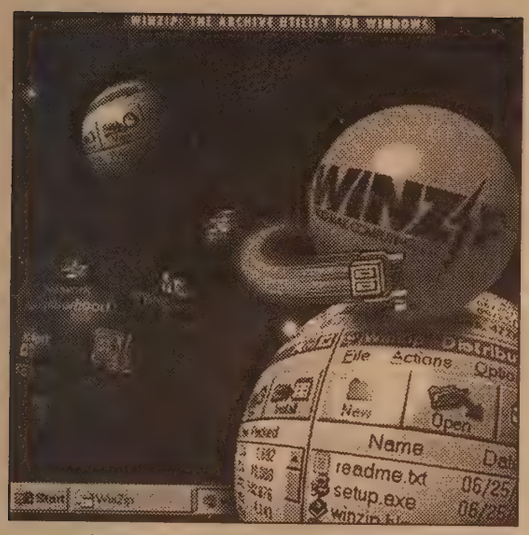
Micro Logic Corp. has begun shipping version 2 of DiskMapper, its graphical hard disk space-saving utility. In addition to its familiar graphical map based on nested rectangles, DiskMapper v2 includes a standard file tree allowing space-saving and file-management functions to be performed with one product. DiskMapper v2 can find and display duplicate files, such as those downloaded twice

Micro Logic
DiskMapper™
The "road map" for creating more space on your hard disk
NEW!
● Free up valuable hard disk space
● Avoid costly disk drive upgrades
● View your hard disk like never before

from the Internet, and list file extensions in order of the space they consume on your drive. DiskMapper also offers an advisor that helps you decide whether a selected file can be deleted. The new release provides a filter, allowing users to view only files meeting a specified condition, and also provides a quick and easy way to search for files or subdirectories. Search results are displayed as the search request is typed. For Windows 95/NT. ($49.95) Micro Logic Corp., P.O. Box 70, Dept. P, Hackensack, NJ 07602. (201)342-6518. URL: *http://www.miclog.com* .

WinZip 6.3

WinZip 6.3, the new version of Nico Mak Computing, Inc.'s popular Windows Zip utility, now includes automatic built-in disk-spanning support for multi-disk Zip files. Other enhancements include better Windows 95/NT shell integration, and improvements to the built-in WinZip Self-Extractor Personal Edition. WinZip 6.3 also includes an interface to the free Internet Browser Support Add-on, which lets users download and open Zip files from the Internet with one click via Microsoft Internet Explorer or Netscape Navigator. There is no need to "Save to disk" and then switch to WinZip or to the Windows Explorer or File Manager to open the downloaded file. In addition,



all files that have been downloaded are automatically copied from the Internet browser's temporary folder to a folder of the user's choice. This ensures that a permanent copy of the download is saved on the user's system, even if the downloaded file is automatically deleted by the browser. ($29) Nico Mak Computing, Inc., P.O. Books

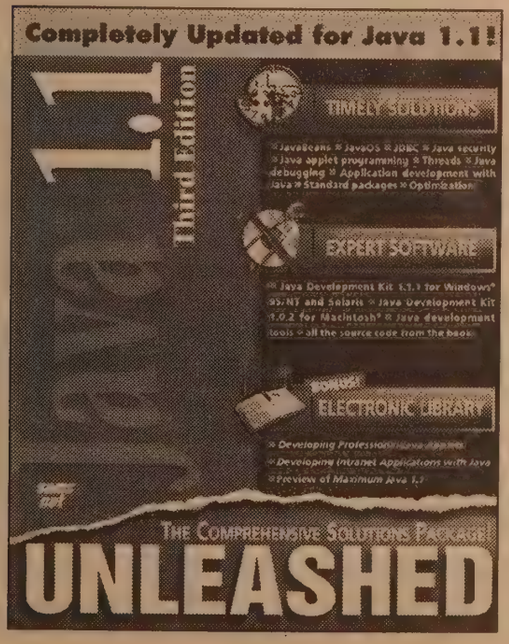
Java 1.1 Unleashed, Third Edition

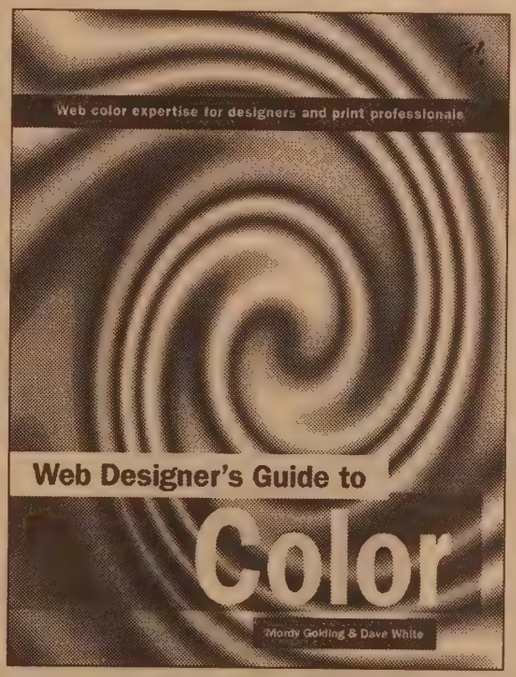
Based on the final release of Java 1.1 with detailed coverage of the latest Java developments, this all-in-one guide is designed to be



a primary resource for experienced Java programmers. It provides extensive coverage of the latest Java add-ons and third-party development tools. This guide explores the new Java extensions and APIs, JavaBeans, JavaOS, and other Java-based technologies and application development, and investigates Java security. The CD-ROM included with the book is filled with a collection of Java, HTML, and graphics and multimedia development tools, Sun's JDK, and electronic versions of *Developing Professional Java Applets, Developing Intranet Applications with Java,* and a preview of *Maximum Java 1.1.* ($59.99) Sams Publishing, 201 W. 103rd St., Indianapolis, IN 46290. 1-800-428-5331. URL: *http://www.sampublishing.com* .

Pantone Web Color Resource Kit

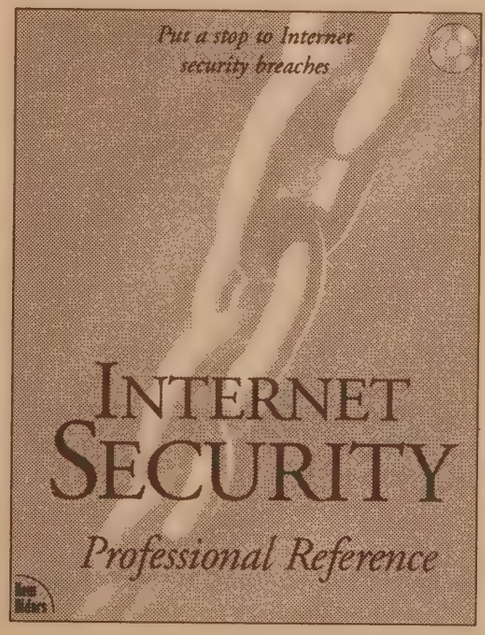
PANTONE Web Color Resource Kit is a cross-platform package for Web designers and developers to master the intricacies of color display



on the Web. The kit includes Web Designer's Guide to Color, PANTONE's safe palette swatch book, and a CD-ROM loaded with PANTONE's ColorWeb system. Using a task-oriented approach, Web Designer's Guide to Color offers both technical information and design advice on mastering color creation and display on the Web. PANTONE's safe palette swatch book displays the 216 Internet-safe colors along with the RGB, CMYK, hexadecimal, and Hexachome values, allowing readers to quickly and easily match the color they want with the color that is available and visualize what their Web page will look like, without having to go online. In addition to the PANTONE Internet Color System Color Picker for Macintosh, the included CD-ROM presents a wide array of tools from techniques from HTML Web Magic, a Photodisc catalog, Adobe Pagemill 2.0 for Macintosh, as well as tools and utilities for optimizing color. ($65) Hayden Books, 201 W. 103rd St., Indianapolis, IN 46290. 1-800-428-5331. URL: *http://www.mcp.com* .

Internet Security Professional Reference, Second Edition

Internet Security Professional Reference, Second Edition points out inconsistencies, weakness-



es, and breaches in existing computer security implementation and shows you step-by-step how to fix them. Written by a team of experts in the computer security field, readers will learn how security is traditionally implemented, explore ways in which security checkpoints can be side-stepped by trespassers intent on doing harm and discover how to create a secure system to prevent break-ins. In addition, the authors explore spoofing, sniffing, kerberos, CGI security, viruses, audit trails, PGP, Java, encryption, firewalls, and SATAN. The enclosed CD-ROM contains shareware

versions of all the utilities discussed in the book. ($65) New Riders, 201 W. 103rd St., Indianapolis, IN 46290. 1-800-428-5331. URL: *http://www.newriders.com* .

The Economics Of Electronic Commerce

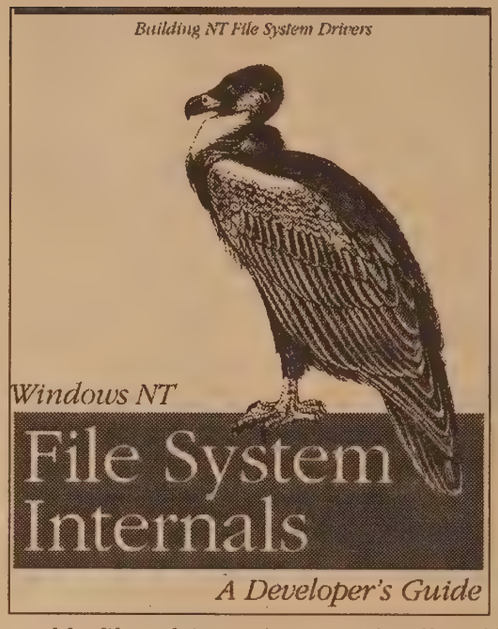
The Economics of Electronic Commerce presents current issues of electronic commerce from a traditional economic perspective. This book compares and contrasts the economic implications of digital versus physical products; discusses issues, such as copyright and ownership within the scope of economic analysis; introduces fundamental microeconomic issues, including quality, uncertainty, and market efficiency within the electronic marketplace; and offers conclusions and implications for business and policy makers. ($49.99) Macmillan Technical Publishing, 201 W. 103rd St., Indianapolis, IN 46290. 1-800-428-5331.

Internet In A Nutshell

In the tradition of O'Reilly's other *In a Nutshell* books, *Internet in a Nutshell* starts with a quick tour of the Internet, focusing on the technology that makes it work. It then dives into details on basic- and power-user features of the popular Web browsers, mail and news readers, file handling, Web authoring, and more. It includes sections on comparisons of the strengths of the most popular search engines; Web authoring, with topics ranging from basic HTML to creating animated GIFs and using JavaScript; and tips and reference for Netscape Communicator 4.01 and Internet Explorer 3.02. ($19.95) O'Reilly and Associates., 101 Morris St., Sebastopol, CA 95472. 1-800-998-9938 or 1-800-889-8969. URL: *http://www.oreilly.com* .

Windows NT File System Internals

Windows NT File System Internals focuses on the files system component of the Windows NT operating system and the interactions of the file system with other core components of the OS. It begins with an introduction of the Windows NT OS architecture, then delves into the Windows NT kernel and the Executive components. It also presents the details of the I/O Manager, the Cache Manager, and the Memory. It provides numerous code examples, as well as the source for a complete, usable filter driver. ($49.95) O'Reilly and Associates., 101 Morris St., Sebastopol, CA 95472. 1-800-998-9938 or 1-800-889-8969. URL: *http://www.oreilly.com* .



Java In A Nutshell: Deluxe Edition

Java In A Nutshell: Deluxe Edition offers Java programmers an innovation incarnation of the long-awaited "online book." In addition to a printed copy of the deluxe edition of Java in a Nutshell, this book provides a Java Reference Library and a cross-platform CD-ROM that includes five volumes for Java 1.1 programmers: *Exploring Java, 2nd Edition; Java Language Reference, 2nd Edition; Java Fundamental Classes Reference; Java AWT Reference; and Java in a Nutshell, 2nd Edition.* The Java Reference Library, which is built with an HTML interface, is available on the Web as well as on CD. Those who purchase the CD will also have access to the Web version. ($69.95. A Web-only version of the Java Reference Library is $59.95) O'Reilly and Associates., 101 Morris St., Sebastopol, CA 95472, 1-800-998-9938 or 1-800-889-8969. URL: *http://www.oreilly.com* .

cardBAY

The cardBAY family of portable, low-cost drives for mobile products with a PC Card slot was developed using Iomega's n-hand technology platform. Using standard Iomega 40MB click! disks, cardBAY provides click! disk technology to portable computers, subnotebook computers, handheld computers, PDAs, digital cameras, and other mobile products. It fits snugly into all Type III PC Card slots and does not require any external power. It features CNF's POWERflex technology, which allows CNF portable products to draw a minimum amount of power from the mobile device, while it draws the remaining required power from a battery pack in the drive. ($300) CNF, Inc., 15345 Calle Enrique, Morgan Hill, CA 95037. (408)778-1160. 1-800-826-3462. URL: *http://www.cnfinc.com/*.

Presentation Audio System

Mediaphile's Presentation Audio System (PAS) offers presenters a sound system to

match the sophisticated visual presentation applications they are currently using. It consists of two high-power satellite speakers with an integrated amplifier, a volume-control device, and a power module. A sub woofer is optional. The portable, light-weight package works with a notebook computer or any other source of high-quality audio. The PAS sound system uses Mediaphile's Group Listening technology, an omni-directional method that evenly distributes sound throughout a room so that all listeners hear it at the same level and clarity. When the system is used with the optional sub woofer, power for both the sub woofer and the speakers is provided by a Smart Connect power and amplifier circuit inside the unit. The Smart Connect automatically reconfigures the satellite amplifier circuit for lower distortion and higher volume levels. ($99.99 for satellite system or $249.99 with sub woofer) Mediaphile AV Technologies, Inc., 13803 Industrial Park Blvd., Plymouth, MN 55441. (612)559-1019.

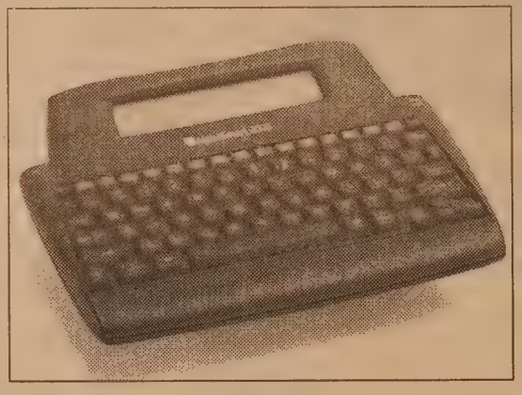
AlphaSmart 2000 Keyboard

Intelligent Peripheral Devices, Inc. (IPD) has shipped the AlphaSmart 2000 "Intelligent Keyboard," a newly designed and enhanced version of its earlier AlphaSmart Pro model. The AlphaSmart 2000 is an affordable companion to virtually any Macintosh or PC that can be used anywhere to enter notes or reports; later, the user can plug the AlphaSmart into a personal computer to transfer the files into virtually any application. Weighing 2 lbs., the AlphaSmart 2000 offers direct printing to most PC and Apple printers; spell-checking with a 70,000-word dictionary; an ergonomically designed, full size, 80-key keyboard; an easy-to-read, 4x40-character LCD display; and sixty-four pages of text storage with eight separate files for storage. The keyboard also functions as a Macintosh or PC keyboard when connected to a computer, and offers features for people with special needs,



such as sticky keys, key repeat control and four keyboard layouts: QWERTY, left-handed, right-handed and Dvorak. The AlphaSmart has been recognized by Motorola as one of four "innovative products that power your life at home, work, and play." RoughRider Laptops

Xenocom has introduced the RoughRider series of ruggedized laptops, which are designed to meet the toughest demands of customers in construction, law enforcement, firefighting, heavy industry and other work environments where standard mobile PCs would face dangerous hazards. Produced in a rubberized yellow casing, the RoughRider Junior, 1000 and 2000 models weigh 6.7 lbs. and are built to withstand abnormal conditions such as rain or wet environments, bumpy roads, rough handling and extreme temperatures. Standard on all models are Pentium 133MHz or 166MHz processors. The RoughRider Junior and 1000 systems have a minimum 8MB and maximum 32MB of RAM; the 2000 has 16MB of minimum RAM and 64MB maximum. For data storage, all three models offer a 1.44MB floppy via parallel port;

a 1.08GB hard disk drive is standard on the Junior, while the 1000 and 2000 models come with a 1.3GB drive. ($4,000-$5,000) Xenocom, 24651 E. Orangethorpe Ave., Ste. 219, Fullerton, CA 92831. (714)525-4090. URL: *http://www.xenocom.com* .

UMAX Astra 1200S

The Astra 1200S flatbed color scanner features resolution of 600 x 1200 dpi, which can be maximized to 9600 dpi through interpolation and 30-bit color with Bit Enhancement Technology to allow more accurate color capture and smoother gradations. In addition, UMAX has included Xerox's Pagis SE software for Windows 95 and NT provides one-touch scanning, automatic image enhancement, and very small, high-quality color files. Pagis SE allows you to scan documents, preserve document formatting, and share them via fax, email, and the Web. Another major benefit of Pagis SE is its ability to capture full-color documents at up to 90% smaller file sizes without any degradation to the image quality. Rather than the typical 2.5MB TIFF file, the same documents are less than 125Kb when captured by Pagis SE through the use of Xerox's Xtended Image Format (XIF). Mirage II

The Mirage II, is a large-format (A3 size) scanner based on the dual-lens design. The single-pass, 36-bit scanner increases in-house productivity by providing batch scanning and pre-press capabilities intended for professional graphic designers and publishing professionals. It features true optical resolutions of 700 x 1400 dpi and 1400 x 2800 dpi for superior image clarity and enlargement. The maximum scanning area is 11.4" x 17" for the standard lens and 5.7" x 17" using the highest lens. Featuring a 3MB buffer an proprietary, bus-caching design, Mirage II is capable of scanning an 11" x 17" image at 700 dpi in 66.7 seconds. Combined with MagicScan 3.0, UMAX's software interface, users have the ability at adjust images according to contrast and brightness, unsharp mask and blur filters, custom de-screen and gamma curve correction resulting in fine detailing and quality imaging outputs. The Mirage II also includes binuscan's PhotoPerfect Master, a software package providing automated color correction, grayscale/black and white processing, and CMYK separation. OKIPAGE 6ex

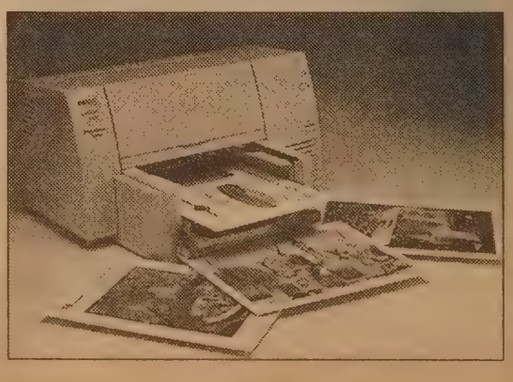
The OKIPAGE 6ex, a new 6 ppm, LED page printer, is capable of 6,000 pages of business-class output per month. It features 600 dpi output, with 600 x 1200 capability for graphics, enhanced by OKI Smoothing Technology, which reduces rough edges, and includes thirty-five PCL scaleable fonts, ten TrueType fonts, plus USPS-certified PostNet Bar Codes. With 2MB of memory, upgradeable to 34MB, it easily handles complex documents at a speed of 6 ppm, with a 17 seconds-to-first-page print speed. The OKIPAGE 6ex is fully compatible with Windows 3.1, 3.11, 95, NT 3.51, and NT 4.0, and MS-DOS. Other new software enhancements include watermark-

ing, 2-up/4-up layout printing, and dynamic grayscaling of graphics data. ($569, available primarily through value-added resellers and independent resellers) Okidata, 532 Fellowship Rd., Mount Laurel, NY 08054. (609)235-2600. URL: *http://www.okidata.com* .

HP DeskJet 890C Professional Series

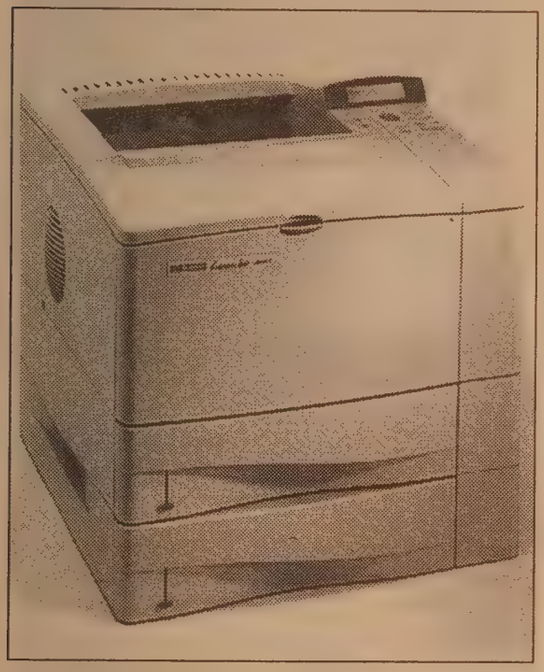
The DeskJet 890C Professional Series printers incorporate several new HP-developed technologies to deliver high-quality output. PhotoREt II uses a new color cartridge to produce photo-quality color on any paper. ColorSmart II technology for sharp color output includes SmartFocus for optimized printing of Internet and multimedia images; sRGB support, a new color-space-definition standard developed by HP and Microsoft that offers superior color consistency between applications, monitors, and other peripherals; and MMX technology support for faster, more productive color-image processing when used with PCs that have MMX technology processors. The



new printers feature a 24MHz RISC processor to produce up to 9 ppm for black text and 5 ppm for color. ($449) Hewlett-Packard Co., 19310 Pruneridge Ave., Cupertino, CA 95014. 1-800-752-0900. URL: *http://www.hp.com*.

HP LaserJet 4000 Series

Hewlett-Packard Co. has introduced its most technologically advanced laser printers, the HP LaserJet 4000 series, which feature technologies that raise network printing to new



levels of performance, print quality, manageability and usability while lowering total cost of ownership. The new printers are equipped with a 100MHz processor and operate at 17 ppm with 1200-dpi resolution. The LaserJet 4000 printers are equipped with HP FastRes 1200, a new technology that enables 1200-dpi images at full engine speed. FastRes 1200 does not suffer the memory and performance tradeoffs associated with most competitive 1200-dpi offerings. In addition, the 4000 series utilizes HP's UltraPrecise toner cartridge—a newly designed, 10,000-page cartridge that reduces cost per page up to 20% over the previous generation. Smaller (5–6 micron) toner particles contribute to high-quality output. ($1,099-$1,599) Hewlett-Packard Co., 19310 Pruneridge Ave., Cupertino, CA 95014. 1-800-752-0900. URL: *http://www.hp.com*.

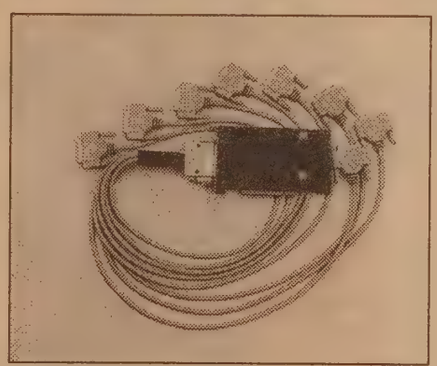
PC Hardware

KeyVision 128 Video Accelerator

Taking advantage of the multimedia features built into Windows 95, the KeyVision 128-bit multimedia video/graphics accelerator card provides support for games and entertainment applications that use Microsoft DirectDraw. Using the Tseng Labs ET6000 128-bit graphics engine to provide enhanced video features, including high-performance Multibank DRAM support, it comes standard with 2MB Dram and can be configured with up to 4.5MB. The maximum display resolution of 1600 x 1200 pixels and a vertical scan refresh rate of up to 100Hz is one of the most visually stable refresh rates available today. Drive support is provided for DOS, Windows 3.x, 95, NE, OS/2, and other popular software. (Estimated street price, $85, 2MB, $125, 4MB) Koutech Systems, Inc., 9314 Norwalk Blvd., Santa Fe Springs, CA 90670. (310)699-5340. URL: *http://www.koutech.com*.

PCI Octoport

With PCI Octoport you get the functionality of an eight-port ISA card in the PCI bus. This half-size PCI card that fits all PCI slots is an



easy-to-use plug-and-play design that is compatible with the PCI 2.1 standard and can operate at up to 115.2Kbps across all eight RS232 ports. The system resources are automatically assigned by the system when it boots. The person who installs the board doesn't have to worry about dividing up the system memory, interrupt, or DMA resources between the different boards in a system. Conflicts are automatically solved. This makes installation easy since it is not necessary to manually assign system resources. Both Windows 95 and NT drivers are included. The Palm Mouse

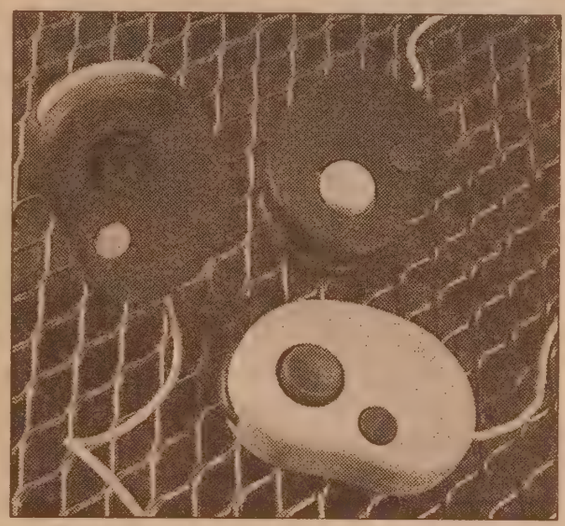
Fujitsu Takamisawa America, Inc. (FTA) has developed the Palm Mouse, a hand-held



pointing device that gives users portable cursor control with laptop computers and other mobile devices. The Palm Mouse is suitable for computing while traveling or where workspace is limited, and when giving computer-generated presentations. Ergonomically designed to fit into the user's palm, the Palm Mouse provides accurate cursor control when light thumb pressure is applied to its "navigation dome," which is located on the top of the device. When thumb pressure is released, the dome automatically returns to a home position. A button on the front of the Palm Mouse functions as a left-mouse button, and a smaller button, located on the top of the device next to the navigation dome, operates as a right-mouse button. The Palm Mouse works with any Microsoft Windows-compatible mouse and it requires a PS-2 mouse port. ($24.99) Fujitsu Takamisawa America, Inc., 250 E. Python

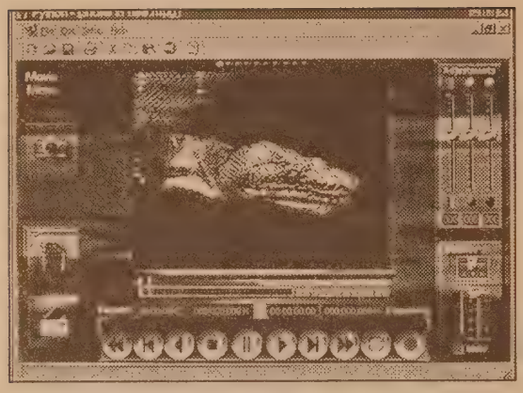
Python is an MPEG-1 video capture device that allows Windows and Macintosh users to

Left to right: Capture video with Videonics' Python; Toshiba's MediaStar LCD projector; Newcon's 56K internal modem; Dresselhaus Computer Product's Black Magic Internet Sharing Server.



send video email, create streaming video Web pages, and add video to their multimedia presentations. It connects directly to a computer's parallel port (a pass-through port is provided for printer use). Users can quickly trim video files to the exact size desired, all multiple video clips to a single file, adjust the colors of video clips and stills, and manipulate the sound. Python captures audio and automatically synchronizes it with video in a single MPEG-1 file using the owner's existing sound card. Software bundled with Python includes XingMPEG Encoder2 and Player, StreamWorks Server and Player, Kai's Photo Soap Se, and Astound 4.0. MediaStar LCD Multimedia Projectors

The Toshiba MediaStar LCD Multimedia Projectors, TLP-511 and TLP-510, project computer and video sources with brilliance and clarity (1024 x 768 XGA resolution), even in fully-lighted rooms. They feature a swivel lens on the base of the projector that lets users easily switch between portrait and landscape images. The TLP-511 also includes a built-in document camera capable of projecting written materials and 3-D objects directly from the surface of the projector. This lets you place meeting notes, photographs, engineering drawings, and actual products on the projector itself, casting high-resolution images on the wall or screen. Other features include an easy-to-use zoom focus lens system, Toshiba's new 2000-hour long-life metal halide lamp, triple 1.3 LCD poly-silicon TFT panels, ceiling, tabletop, and rear projection capabilities, and a wireless, full-function remote control with PC mouse control capability. NewCom 56K Internal Data/Fax Modem

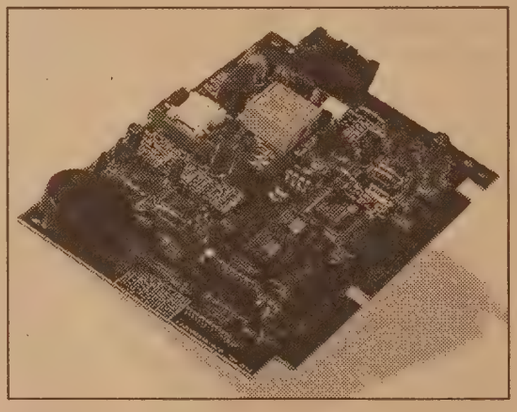
NewCom's 56K internal data/fax modem uses USR X2 technology and features the new Cirrus Logic CL-MD56XX chipset to allow users to download at a rate of up to 56Kbps, upload at 33.6Kbps, and send/receive at 14.4Kbps. The Cirrus Logic chipset builds on its FastPath V.34+ architecture, incorporating a RISC processor along with a high-bandwidth DSP. This high-performance architecture supports advanced features such as V.80 for video conferencing, full-duplex speakerphone, the Radish VoiceView protocol, and telephone answering machine capabilities. ($134.95, internal data/fax modem; $149.99, internal data/fax voice modem) NewCom, Inc., 31166 Via Colinas, Westlake Village, CA 91362-4500. (818)597-3200. URL: *http://www.newcominc.com* .



Black Magic Internet Sharing Server

In response to the need for cost-effective Internet access for everyone in an office, Dresselhaus Computer Products, Inc. has announced its new Black Magic Internet Sharing Server. The Black Magic Internet Sharing Server connects to an office network and to a standard phone line, then handles all traffic between the Internet and each office computer. When an office utilizes Black Magic, additional modems or separate phone lines are unnecessary. Black Magic contains the latest in high-speed modems: either a U.S. Robotics 56K modem using x2 technology, or a 33.6K modem, which can both be upgraded as newer modem technology becomes available. Both models also contain an Ethernet network interface card with an RJ-45 jack for 10BaseT networks and BNC tee connector for coax networks along with connecting wires. Black Magic does not interfere with an office network in any way and will coexist with all network operating systems including Novell, LANtastic, UNIX, and Microsoft Network. For Windows 3.x/95 or MacOS 7.5 or higher. ($699–799) Dresselhaus Computer Products, Inc., 305 N. Sacramento Pl., Ontario, CA 91764. 1-800-368-7737. URL: *http://www.dresselhaus.com* .

October 24, 1997

Dear Marty,

Every year I find myself writing a letter to MicroTimes saying one thing, thank you.

Our goal at UMiracle Microsystems is to provide top quality services and complete solutions to our customer in all areas of computing; PC Systems, Peripherals, Networking Servers, RAID Solutions, and all Networking Solutions, including Support and Training.

Our advertisement expenditure in MicroTimes over the years has paid for itself tremendously in building our corporate and end-user account base.

As you know we run in a variety of media, *Yellow Pages, Computer Currents*, etc., but MicroTimes is our number one choice for our advertising dollars.

Your service and support have been tremendous, and once again I would like to say thank you.

Best Regards,

Derek Chung

MONITORS

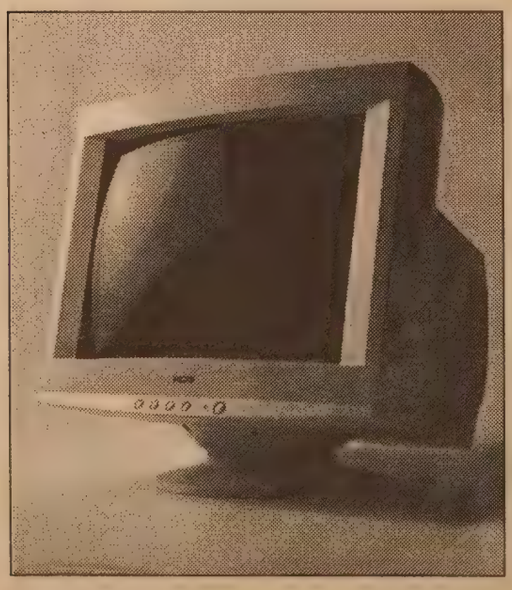
VETRIX MW-15

The Nimantics VETRIX MW-15 is an ultra-thin 15" flat panel display that you can pick up with one hand. The screen is only 2.25" deep and provides clearer and brighter images in

the same viewing area as a traditional 15" monitor. It measures 14.5" x 6" x 15", weighs only 9 lbs, and offers 1024 x 768 screen resolution. It connects to your computer through a standard analog connection. The MW-15 also provides a Universal Serial Bus (USB) connection. The MW-15 comes with two built-in speakers, manual controls, and on-screen displays. Full 90-degree rotation allows portrait and landscape viewing. ($1499) Nimantics Inc., 2913 El Camino Real, #411, Tustin, CA 92782. URL *http://www.nimantics.com* .

KDS Visual Sensations VS-19

The VS-19 19" high-end monitor for Macs and



PCS offers an alternative for those who want something larger than the standard 17" monitor, but don't have the desktop space or want the expenditure of a 21" monitor. It features a horizontal scanning frequency of up to 95KHz, which produces resolution of 1600 x 1200 pixels at a 75Hz refresh rate. The VS-19 meets the Swedish MPR-II standard for very low radiation emissions, and is in compliance with EPA Energy Star and VESA DPMS standards. Adding to easy user viewing is a high-contrast CRT with INVAR shadow mask and non-glare, anti-static treated glass, plus complete on-screen display of all user controls. It also provides universal voltage for foreign or domestic use. KDA USA provides a full three-year warranty. ($999) KDS USA, Inc., 12300 Edison Way, Garden Grove, CA 92841. (714)379-5599. Hansol 700P

The 700P, a 17" high-resolution monitor, is set on a swivel base, with adjustment con-

trols housed in a sturdy drop-down mount. Seven buttons combine with on-screen menus to control contrast, brightness, color balance, image position, and size, while reducing pincushion, trapezoid, and parallelogram distortion. In addition, it offers a unique modified ventilation design, allowing it to operate at lower temperatures. The 700P works with both PC and Mac computers, connecting to either platform with a reversible cable. This Energy Star-compliant, Windows plug-and-play monitor features standard INVAR shadow masking to enhance brightness and contrast. Hansol provides a 24-hour hotline for technical support, an express replacement option, and a three-year limited warranty. Proview SA-Series

Proview Technology has announced its SA-Series of 14", 15", and 17" color monitors, all housed in a distinctive black casing and

designed for applications ranging from high-end graphics to general business. The new monitors from Proview include the 17" SA-768-B (15.7" viewable, flat-square cathode ray tube), the 15" SA-564-B (13 8" viewable, flat-square CRT) and the 14" SA-455-B (13.2" viewable, conventional CRT). For the graphics professional and others requiring a large screen and highly detailed images, the SA-768-B provides a .28 mm dot pitch, a refresh rate of 56Hz–85Hz, and 1280x1024 resolution. The SA-564-B and SA-455-B (15" and 14", respectively) are designed for word processing and other general business applications; both models feature .28 mm dot- pitch, with a 56Hz–75Hz refresh rate and non-interlaced 1024x768 resolution. All SA-Series monitors feature an auto-sensing, universal voltage power supply and non-glare CRTs. Big Presents. Not-so-big prices.

You want a computer but you don't want to spend a lot.
You go to Computer Renaissance, see the great selection
of 486, Pentium®, Macintosh, Printers and Monitors at great prices.
You smile, approach a highly-qualified
Computer Renaissance person and get just the computer
you want, warranty and all, and you have
enough left over for mistletoe . . . or whatever.

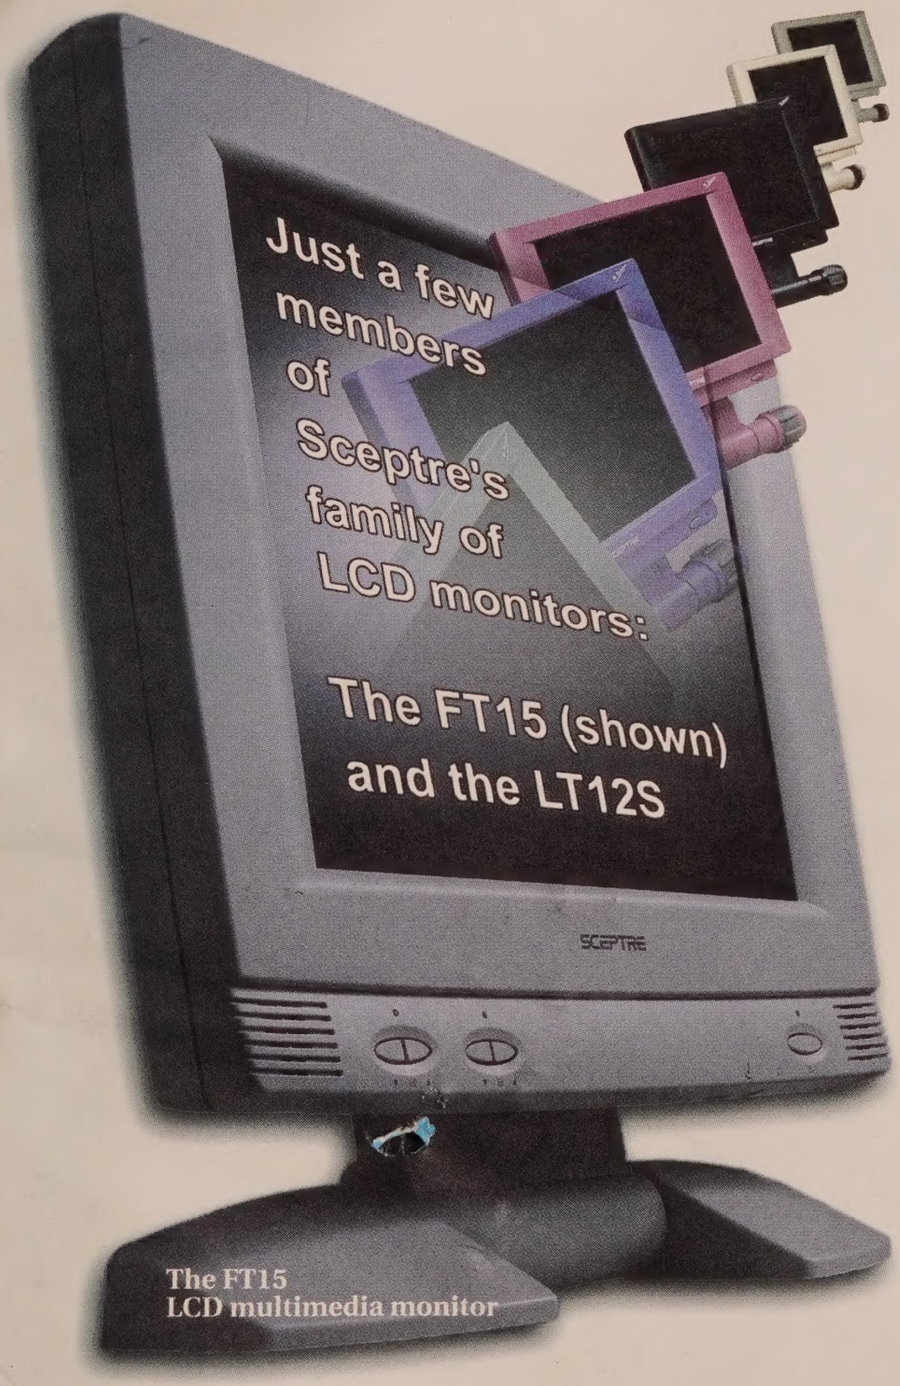
Been There, Done That!



The FT15
LCD multimedia monitor

Our current model, the FT15, is Sceptre's 5th generation flat panel monitor. We definitely have been there and done that when it comes to providing LCD flat panel monitor solutions! Read what these people have to say about Sceptre:

"I was confronted with the problem of creating an easy to use, computer friendly workstation for our executives who demonstrate our Britannica Online®... I needed a monitor that was both technically and aesthetically appropriate ... Sceptre's LCD allows us to do everything we need to. The price was within our range as well. It's worked like a champ."

Larry Merrick, Vice President, MIS
Encyclopedia Britannica

"I reviewed a few different flat panel monitors. Sceptre's was the best in terms of dimensions, features, and lack of interference. It was also the most realistically priced. It was a pretty easy choice."

Richard Hinson, medical research scientist
Wyeth-Ayerst Research

To find out how a Sceptre LCD flat panel monitor can provide the solution to your challenge, visit our web site at:
